BRAKE GUARDS

BUILT TO LAST - BUILT TO PROTECT

HERD Brake Caliper Guards help prevent costly repairs, dangerous brake failures, premature wear and downtime caused by damage to your critical brake components.

FD250-01BG

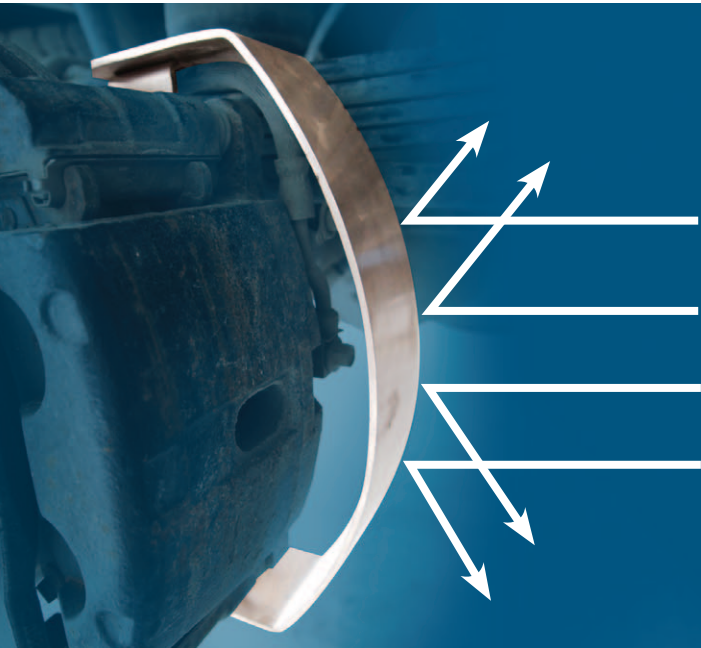

FD150-01BG (Brake and Shock Guard)

HERD Brake Caliper Guards are easy to install as a direct bolt on application and don't require any welding, aftermarket hardware or modifications to your truck.

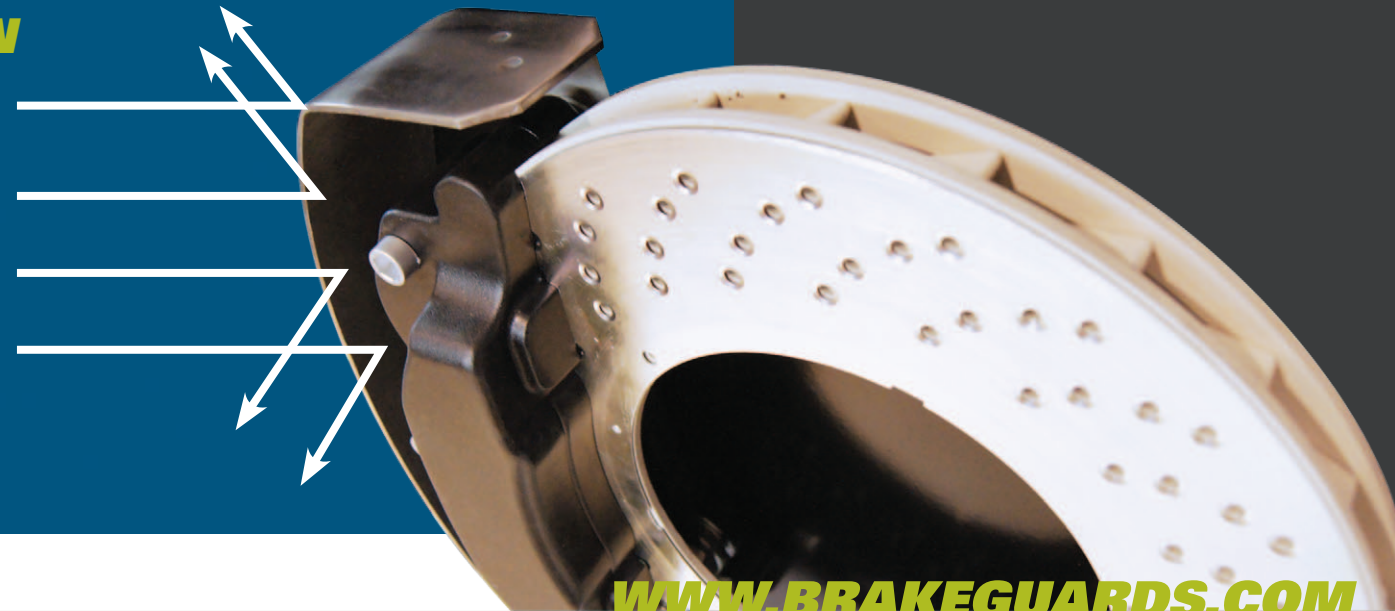

EX-1500-02BG

Constructed out of high quality 304 grade stainless steel, your HERD Brake Guards will take the abuse on behalf of your critical brake components and will never rust.

CALIPER PROTECTION

Keep mud, gravel, dirt and road debris from damaging your disc brakes, calliper mounting pins and flexible hydraulic lines by installing HERD Brake Caliper protection before something goes wrong.
